# 8. TRAINING AND CAPACITY BUILDING

- RDD & CSC use Train-the-Trainer model for application training to users from the HQ to the Gram Panchayat.
- First level training is conducted for District Managers at a central location by Training Manager and Master Trainers.
- These Master Trainers conduct next level training of all applications to Govt. Officers, Block Managers & Kendra Chalaks (KC) in a phased manner.
- In order to keep their requisite technical knowledge up-to-date and also for ensuring constant familiarity of all applications, continuous training programs are provided to KCs through defined training calendar, which is tracked online.
- To enhance the management skill set and team work amongst the project management team for supervising training workshops of the team, Personality & Emotional Intelligence Development Workshops has been conducted in the system.
- To expedite the training process, e-Learning Management System is utilized, This ensures availability of learning content 24×7, thus supporting Continuous Training
- Online PDF manuals and printed copy of the manuals is made available for continuous learning of KCs.
- 3 Orientation Programs for selected DMs and BMs have been held at YASHADA Pune till date.

## Method:

The choice of method for transferring and exchanging knowledge will depend on the audience and the message. However, it is also worth noting, that knowledge is most effectively exchanged when using multiple methods.

1. **Train the Trainer Method:**
   This method is very useful in transforming skills and knowledge.
   Skills/Knowledge exchange is preferable to knowledge transfer since a two-way flow of information can lead to an ongoing dialogue between knowledge producers and users and create learning opportunities for both groups.

2. **Grouping of ASSK Team Members:**
   Grouping of people with common interests who interact regularly to share knowledge – is one interactive delivery method that effectively initiates and sustains collaboration among a diverse group of individuals.

   **Grouping of ASSK Team Members:**
   - Project Manager
   - District Manager
   - Block Manager
   - Kendra Chalak
   - Technical Support Executive
   - Account Executive
   - SPMU and State Level Govt. Officials
   - Dy. CEO and Account Officer
   - BDO, ABDO, TPO
   - Gramsevak, Sarpanch
   - Other Department Officials
   - HR Executive

## 10.7 PAPERLESS GRAM PANCHAYAT PLAN:

As per Mumbai Gram Panchayat Act 1958 and Lekhasanhita 2011 – all the Gram Panchayats of Maharashtra were maintaining their records in physical form. Hon'ble Principal Secretary – Shri Aseem Gupta Sir (IAS) took the initiative of transforming the maintenance of Gram Panchayat records into digitized format. Accordingly, directions were issued to all the functionaries of Gram Panchayats to make the GPs paperless, that is to transform the present Gram Panchayats into Paperless Gram Panchayats. Thus, as per the guidelines issued by Rural Development Department, Government of Maharashtra, the process of transforming all the physical records of Gram Panchayats into digitized format by using e-Gramsoft application software was started. Maharashtra is the pioneering state which is progressing rapidly towards the creation of Paperless Grampanchayats.

Data Digitization of physical records of 1 to 33 registers / formats is in Progress. All other records of Gram Panchayats are being transformed into digitized format in offline e-Gramsoft application. Entire data saved in off-line application is being synchronized on ERP application by using Upload Station tool.

Once the digitization of physical records is completed, then Gram Panchayats are declared as Paperless Gram Panchayats. Subsequent to the transformation of these Gram Panchayats into Paperless Gram Panchayats, the old physical records are sealed in due course. This Paperless GP drive will help all GPs to save expenditure on stationary as well as space and time required for the storage of physical records. Data digitization and consolidation will also benefit all the stakeholders of PRI, who will be able to monitor transactions of the Gram Panchayats on a day-to-day basis.

# SVAMITVA SCHEME PROJECT INFORMATION

The Government of India has decided to implement the scheme for surveying the land parcels in rural inhabited area using Drone technology. The survey shall be done across the country in a phase wise manner over the period of years (2020-2024)

The scheme is proposed as a Central Sector titled "SVAMITVA- Survey of villages and mapping with improvise technology in village areas", with a projected outlay of Rs.79.65 crores for the pilot phase (FY 2020-21)

The outcome from the scheme would include updating the 'record-of-rights' in the revenue/property register and insurance of property cards to the property owners. This would facilitate monetization of rural residential assets for credit and other financial services. Further, this would also pave the way for clear determination of property tax, which would accrue to the GPs leading to better civic amenities.

**The following stakeholders would be involved in carrying out the scheme:**

i.    Nodal Ministry (Ministry of Panchayat Raj), Govt of India.

ii.   Survey of India (Technology implementation Agency)

iii.  State revenue department

iv.   State Panchayat Raj department

v.    Local District authorities.

vi.   Property owner

vii.  Gram Panchayat (GP).

viii. National Information Centre(NIC) – GIS Division

ix.   Other line departments having assets in Rural inhabited areas (if any) for preparing comprehensive database.

For the monitoring purpose, a three-layer monitoring and evaluation framework shall be put in place for timely monitoring, reporting and course corrections (wherever necessary)

## RATIONALE FOR THE SCHEME

**Introduction**

The Government of India has decided to implement the central sector scheme "SWAMITVA". The scheme aims to provide an integrated property validation solution for rural India. The demarcation of abadi areas (the abadi areas include inhabited land, inhabited areas contiguous to Abadi and wadis/basties in rural areas) would be done using Drone Surveying technology, with the collaborative efforts of the Ministry of Panchayat Raj, State Panchayat Raj Department, State Revenue Departments and Survey of India.

This would provide the 'record of right ' to village household owners possessing houses in inhabited rural areas in villages which, in turn, would enable them to use their property as a financial asset for taking loans and other beneficial benefits from Banks. Further, this would also enable updation of property and asset register to strengthen tax collection and demand assessment process of Gram Panchayats.would facilitate monetization of rural residential assets for the purchase of credit and other financial services. This could also pave the way for clear determination of property tax, which would accrue to the GPs directly in States where it is devolved. Apart from demarcation of individual rural property , other Gram Panchayat and community assets like village roads, ponds, canals, open space, school, Anganwadi, Health

# 13. SVAMITVA SCHEME PROJECT INFORMATION

Health sub-centres , etc. would also be surveyed and GIS maps would be created. Further, these GIS maps and spatial database would also help in preparation of accurate work essential for various works undertaken by Gram Panchayats and other Departments of State Government. These can be used to prepare better quality  Gram Panchayt Development Paln(GPDP).

**Need For the scheme**

Survey of rural land in India for settlement and record of rights had last been completed many decades back and moreover. ABADI (Inhabited) area of villages was not surveyed mapped in many states. Hence, in the absence of legal document, the owners of the property in the rural areas are not able to leverage providing loans and other financial assistance. Therefore, to provide the right of property to the household owner, there is need of latest Drone Technology and Continuously Operating Reference Station (CORS) technology for capturing images.

The Survey of India (SoI) prepares National Topographic database on all scales, leveraging emerging technologies for topographical mapping at various scales as per user requirements using Airborne-Photography, Satellite Imageries (Stereo/Mono), Airnorn-LIDAR, High Resolution Satellite Imageries (HRSI).  Unnamed Air, vehicles (UAV) or Drone platform with Optical/Infra-Red/LIDAR sensors. High Resolution mapping at very large scales for revenue, urban and water resources requirements has been in forefronts for the past 3-4 years and SoI has evolved standard operating procedures for acquiring very high-resolution    aerial images and preparing very large-scale maps at 1:500/1,000 scale using Drones. Mapping of the rural habitations in partnership with various state government viz Maharashtra, Haryana, Karnataka, Madhya Pradesh etc primarily for use as revenue maps to confer ownership rights has been undertaken by SoI in the past 1-2 years. Based in these maps or data, property cards have been issued to the citizens viz for Sonari village by govt of Maharashtra and SIRSI village by govt of Haryana. The high resolution and accurate image base maps have facilitated creation of the most durable record of property holding in these areas with no legacy revenue records.

## OBJECTIVE AND COVERAGE OF SCHEME

**Objective of the Scheme**

The Scheme seeks to achieve the following objective:-

i.      To bring financial stability to the citizens in rural India by enabling them to use their property as a financial asset for taking loans and other financial benefits.

ii.     Creation of accurate land record for rural planning.

iii.    Determination of property tax, which accrues to the GPs directly in States where it is developed or else, add to the State exchequer.

iv.     Creation of survey infrastructure and GIS Maps that can be leveraged by any department for their use.

v.      To support in preparation of better-quality Gram Panchayat Development Plan (GPDP) by making use of GIS maps.

vi.     To reduce property related disputes and legal cases.

# SVAMITVA SCHEME PROJECT INFORMATION

## Coverage

There are about 6.62 lakh villages in the country which will be eventually covered in the scheme The entire work is likely to be spread over a period of four years. Presently, the Pilot phase is being the approved for the year 2020-21. Pilot phase will extend to six pilot states (Haryana, Karnataka, Madhya Pradesh, Maharashtra, Uttar Pradesh and Uttarakhand) covering approx. 1 lakh villages and CORS Network establishment is planned for two States (Punjab and Rajasthan). Refer Annexure I for the state wise count of Villages covered under pilot phase. The Respective State Government would finalise the list of villages at the time of signing MoU with Survey of India.

*For the States, which have already done Abadi surveys,the scope and the process of the survey will be decided in Phase II (Post Pilot Phase),in consultation with the states and SoI

## Implementation Process Flow

The brisf/broad level implementation process flow of the scheme is illustrated below:

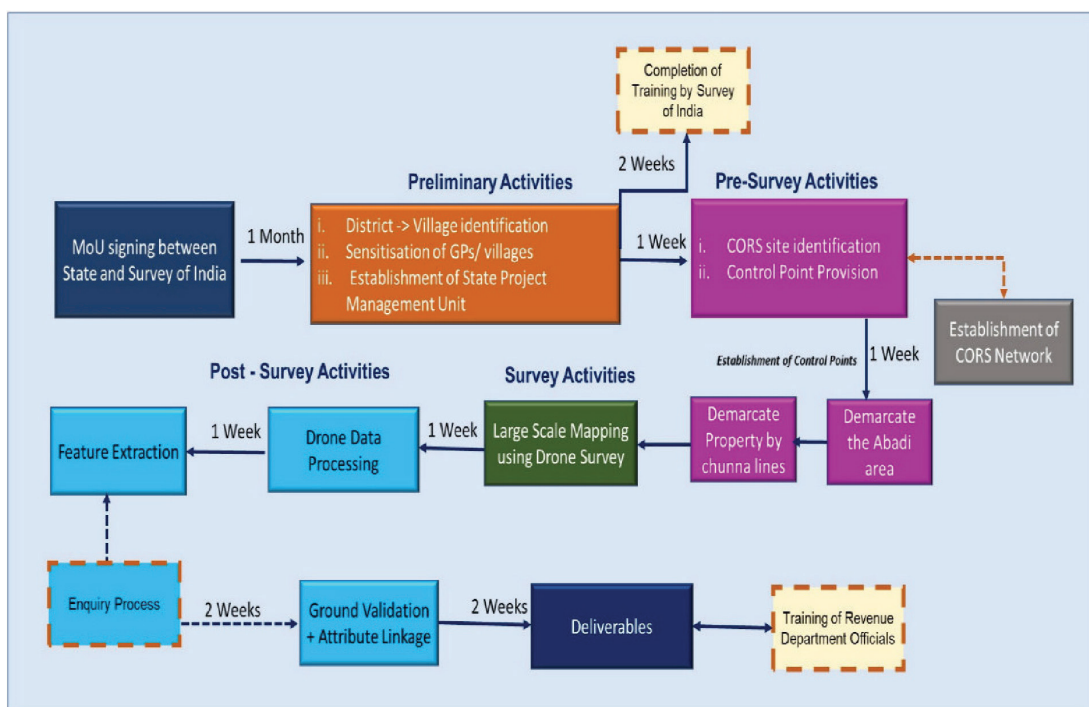

# 14. ENCROACHMENT REGULARIZATION

Government of Maharashtra has passed orders for regularizing encroachments (residential). RDD has formulated a system with associated rules and procedures for regularization of these Illegal properties in the Gram Panchayat areas. This is being done in a time bound and mission mode manner. CSC SPV developed and implemented the software system for this purpose. Through its Kendra Chalaks, CSC SPV has been given the responsibility of doing the data entry as per the rules. The status of Phase I Data Entries are as given below. In Phase II – suggestions and objections are recorded against all illegal properties. This information will be submitted to High power committee for further decision making.
